

BILLY VAN

Download *the Cardigan EP*

from Billy Van for **FREE** at

billyvandubstep.com

Billy Van is a young producer from the Midwest making a serious run at the EDM scene. With a strong musical background and the willingness to push the envelope, his works range from gut-wrenching dubstep to acoustic pop. Stepping out of the producer role and into the artist spotlight, Billy has put together an EP of remixes

Billy Van's debut dubstep album features remixes of LMFAO, Breathe Carolina, Chris Brown, Lights, and Eiffel 65. This mix of classic hits and current jams has something for everyone. Featuring the unique musicality that Billy brings to his dubstep and the signature growling basses and wobbles, this EP isn't one to skip over.
