

Stompin' Tom Connors wrote two autobiographies – both of them were top selling books in Canada.

Tom's first book: "Before The Fame" talks about his unhappy childhood, being taken away from his Mother and his hard life on the road.

His second book: "The Connors Tone" talks about the early part of Tom's career... the performances, the lyrics, the laughter and everything else that came after!

Some music critics were not kind to Tom. He refused to copy the Nashville style - and also decided to use Canadian slang-words in a lot of his songs.

For the record – Tom did not dislike Americans. Some of his favorite singers and songwriters came from over in America .

Tom was upset by all of the great Canadian artists who were leaving Canada behind to go live over in the U.S.A.

His song: "Believe In Your Country" was directed at all of these artists.
