

Willie Nelson

When it comes to music artists from back in the 1960's and 1970's - very few of them are as *Bad-Ass* . . . as the legendary Willie Nelson!

**He's the guitar pickin' ... Weed smokin' ...
Blues and Country singin' cowboy from Texas,
and whether you love him or hate him- Willie Nelson
has earned respect from artists and fans all over
the entire world!**

**He's written many of his own songs,
and whenever he sings a song by somebody else-
he knows how to make it his very own!**

**There are some people who still don't realize
that Willie Nelson wrote the very famous
Patsy Cline hit: "*Crazy*"**

**Willie speaks the truth. . . he tells it like it is . . .
and he does whatever he wants; Willie Nelson is
a true music legend, who will be remembered forever!**
