

Stompin' Tom Connors

This man lived a very hard life,
hitchhiking from town to town . . .
writing songs about the people that
he met. . . and the places that he visited.

His story must be told!

With your help. . . a movie can be made
about the life and career of this legendary
performer- who started out with no money
in his pockets – and eventually became
one of the most unique artists of all time!

This is the director/film-maker
Martin Scorsese.

He's the man behind
these great music films:

The Last Waltz

No Direction Home

Living In The Material World

Here's what Tom wrote to his fans only a few days before his death:

*"Hello friends, I want all my fans, past, present, or future, to know that without you, there would have not been any Stompin' Tom."
"It was a long hard bumpy road, but this great country kept me inspired with it's beauty, character, and spirit, driving me to keep marching on and devoted to sing about its people and places that make Canada the greatest country in the world."*

"I must now pass the torch, to all of you, to help keep the Maple Leaf flying high, and be the Patriot Canada needs now and in the future."

"I humbly thank you all, one last time, for allowing me in your homes, I hope I continue to bring a little bit of cheer into your lives from the work I have done."

Sincerely,

*Your Friend always,
Stompin' Tom Connors*

We Miss You, Tom!
