The Drifting Cowboy
The Texas Possum
The Man In Black
The Canadian Troubadour

Four Great Legends!

Four Great Albums!

HANK WILLIAMS

He was a man who needed no introduction.
A drifting cowboy who changed country music forever,
and who many still believe to be the greatest of all time!

His great collection of songs include "Move It On Over"
"Jambalaya (On The Bayou)" and of course, the very
famous hit "Hey, Good Lookin'"

Hank Williams gave country music much of its
standard repertoire, a new definition of stardom
and a legend so enduring that he is still the model
for countless singers and songwriters.

GEORGE JONES

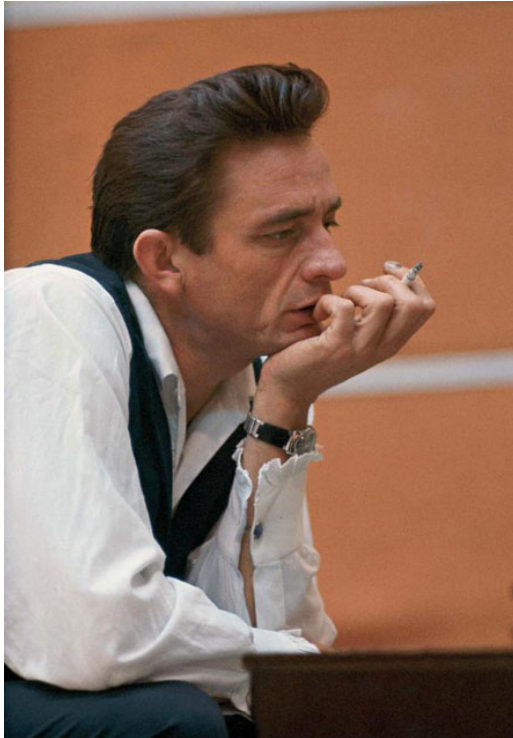

He has done so much for country music over the past 53 years, and recorded so many classic hits, including "White Lightning" "The Love Bug" "The Race Is On" and the unforgettable "She Thinks I Still Care"

Throughout his long career, George Jones often made headlines for his drinking, stormy relationships with women, and violent rages. His wild lifestyle led to Jones missing many performances, and earning him the nickname "No Show Jones."

Jones' close-set eyes and turned-up nose earned him his other nickname... "Possum" which was given to him by a disc jockey in Texas.

JOHNNY CASH

Johnny Cash has been called one of the most influential musicians of the 20th century. Although he is primarily remembered as a country music artist, his songs and sound spanned many other genres including rockabilly and rock and roll - especially early in his career.

Some of Johnny's most well known hits include "Ring of Fire" "I Walk The Line" and "Folsom Prison Blues"

His nickname "The Man In Black" came from his rough outlaw image and the black clothes that he wore on behalf of the poor and hungry.

STOMPIN' TOM

He is a folk and country music legend from Canada, who is known for stomping on a big wooden board while he sings and plays his guitar.

Stompin' Tom Connors began his professional career in the 1960's after getting his big break in Timmins, Ontario. He took the sounds of traditional country western music and mixed it together with Eastern Canadian folk music. A very unique blend, which got people talking about this Canadian troubadour, who has been all over the country writing songs about the people that he's met, and the places that he's visited.

Some of Tom's most popular hits are "Bud The Spud" "Luke's Guitar" and "The Hockey Song"
